Accordingly, independent claims 1, 11, 22, 23, 27, and 28 are allowable over U.S. Patent No. 5,185,667. Likewise, dependent claims 2-10, 12-20, and 29-31 are allowable at least for the reasons claims 1, 11, 22, 23, 27, and 28 are allowable.

Independent claim 21 has been amended to recite, *inter alia*, "planar views for simultaneous display". It does not appear that U.S. Patent No. 5,185,667 incorporates displaying simultaneous views. Accordingly, claim 21 is allowable.

Independent claim 24 has been amended to recite, *inter alia*, "wherein said selection is chosen across said field-of-view, and said signal is generated by a remote alarm". It does not appear that U.S. Patent No. 5,185,667 incorporates the selection of the selected portion based on alarms as now claimed. Accordingly, claim 24 is allowable.

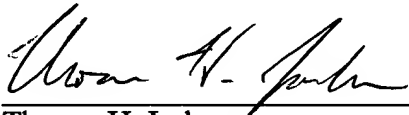

**Serial No. 08/386,912 - Application of MARTIN et al.**
